

Fortunately my home phone will still be in the 716 area. However, as an employee in the Pioneer School District, I make numerous calls throughout the district, which you will be changing to the 585 code. These added changes will delay many important or emergency calls for the school district by having to look up or add the increased numbers. Also, many family members and friends will have changed listings, which will be confusing. With modern technology, it seems you could find some other method to solve your problem other than adding more or different numbers to our present system. There are enough complications in this world at this time, why add more? Please re-consider the changing of part of "716" to "585", we need it to remain as is. Thank you for your consideration.
